

Global: The Future of Drone Technology

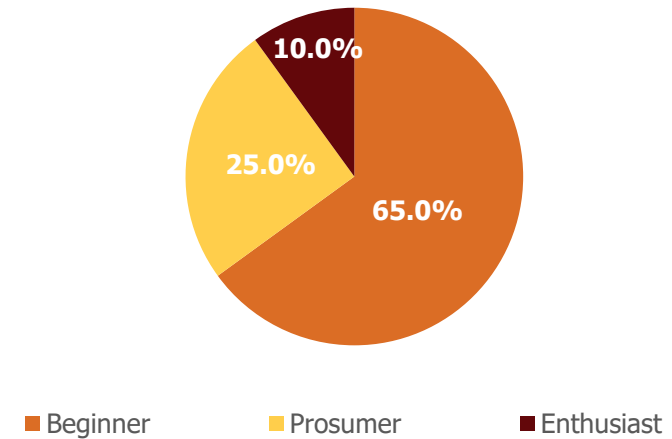

Global Drone Market Revenue (\$bn, 2019-25)

Distribution of Drone-based Solution Market across India, by Sector (% , 2020)

Global Consumer Drone Market Share by Segment (% , 2020)

Key Findings

- Drone industry revenue in the commercial sector is forecasted to grow worldwide by a compound annual growth rate of 13.9% from 2020 to 2025, reaching a value of USD43.2 billion

- The Indian commercial UAS market is expected to touch USD 885.7 million, making it about 4.1% of the nearly USD21.5 billion global market

- The Directorate General of Civil Aviation (DGCA) of India has recently released the draft drone regulations, that have got the start-up and investor community in India excited about the future prospects for the drone industry. For starters, no specific permissions would be required to fly even large drones (500kg max weight) up to 400ft in “green zones”.
